Title:
RESET MEMORY FUNCTION
Models:
'99 ES 300, '99 RX 300

TSIB

Introduction Diagnostic Tester Software beginning with Version 5.1a–1 provides a "Reset Memory" function which should be used to reset ECM "Learned Values" after Transmission replacement or overhaul, and/or ECM replacement.

> **CAUTION:**
> **Failure to perform this function may cause an increase in the time to readjust the "Learned Values".**

Procedure   **Screen Flows:**
